Pavement Management Services: RFQ Addendum #1
City of Dunn, North Carolina
November 24th, 2026

Request for Qualifications Addendum:

Below is a list of Addendum for the Professional Engineering and Related Services: RFQ that was released on November 4th, 2026.

1. Regarding Page 7, there is a clerical error under the submission section. The due date for submittals is Monday, November 30th not Friday, November 30th.

2. To clarify, the city does not have a current Pavement management service. The City does have an ERP that has limited asset management capabilities but is not specialized for pavement management.

3. To clarify, the AI capabilities described in the RFQ are not mandatory requirements for selection. Submitters may offer equivalent pavement-management capabilities that do not rely on AI.

4. To clarify, all licensing, hosting, implementation, maintenance, training, and ongoing support are part of the consultant's professional services. Licensing terms should be a minimum of three (3) years and no more than five (5) years.

5. To clarify, AI models or other software hosted or headquartered outside the U.S. are permitted. There are no location-based requirements for storing and processing pavement, GIS, asset, user, and project data. City data, prompts, and outputs can be included in training third-party AI models.

Contact Information:

You may request a digital copy of the On-Call RFQ Instructional Document via email from Alex Abling (aabling@dunn-nc.org).

Please send all questions to Alexander Abling (aabling@dunn-nc.org) before November 23rd, 2026, at 5:00 pm. The City will respond to all questions submitted before this date and have all addendums posted by November 24th, 2026, at 5:00 pm.

This Addendum and others like it will be posted to the Front page of the City's website under News, Under the city's Bid Notices page, and on the City's Facebook page.
